

VOIP (X-Lite[©]) Set Up Notes VOIP Workshop held at the PCUG Training Room, Holder 22nd July 2006. **Presented by Matthew Smith** sponsored by www.sipme.com.au sip

First plug the mike jack in to the top left socket (the pink one). Then plug the earphone jack in to the bottom right socket (the brown one).

broadband communications

Confirm that the jacks are in the right spots.

Now beef up the mike levels.

1			GIGABYTE		00
	Sound Effect N	/lixer Audio I/O	Microphone	3D Audio Demo	
	Playback	Wave	SW Synth	Realtek HD Audio output Front Re	ear
C	Becord	ব	ব	Realtek HD Audio input	
		CD Volume		Line Volume Stered Raise levels but also hit advanced settings	
	¢,				ОК
		😹 Advanced	setting		
		Microphon	e Boost		
		Сок		Cancel	

Now to set up the phone settings, right click on the phone and open account settings.

Enabled	Domain	Username	Display Name	<u>A</u> dd
